

Dear user,

Thank you for purchasing a subscription for our service ABB Ability™ Condition Monitoring for the period described in the table below.

This document contains important information about the activation of the Smart Sensor service subscription.

In order to use this service you must install an ABB Ability™ Smart Sensor on the monitored device, and commission it with our Smart Sensor App.

After installation you can enter the subscription code from the table below in the app.

For product installation, subscription activation or other technical support please visit our website or contact us by sending an email to the Smart Sensor Support.

<http://new.abb.com/motors-generators/service/advanced-services/smart-sensor/faq>
support.smartsensor@abb.com

With this code your sensor will continue to function after the free trial period, with the functionality that matches your subscription.

If you do not use the subscription code before the expiration date mentioned in this document, the subscription code will expire and you will need to order a new subscription.

Two months before the end of this subscription we will send a reminder to renew the subscription to you and to all users with admin rights in your Smart Sensor Organization.

If you have any questions about this process you can use the feedback function in the smart sensor app or web portal, or you can send an email to the Smart Sensor Support.

Our general terms and conditions apply.

Subscription Code can be used until:

13 Feb, 2023
